

### Do Your Part, Join a Club!

To all dirt bike enthusiasts out there, it is time for us to unite. Our trails and tracks are being shut down at an alarming rate. Unfortunately, most communities do not see the positives our people bring when we come to ride.

I am sure everyone has felt or seen the pressure from different groups that are trying to take away our trails and fun.

Thanks to many individuals in every community around the province we do have a voice. It is in the form of clubs. It is here that we have a voice that will be heard. So please wherever you ride take some time out of your busy schedule and donate your skills to help out you local club or the clubs where you do your riding.

I have been fortunate to meet many of these awesome people and they are the reason that we still have many of our riding areas. The cost is inexpensive and all the money goes to help make these riding areas safer, cleaner and more fun for everyone.

Here are a few clubs to check out. Join up, hit some events and above all donate your skills to help keep our riding areas open!

#### **The Fraser Valley Dirt Riders-[www.fvdra.com](http://www.fvdra.com)**

These people do an excellent job of promoting the sport and hold events, parties and races. Check out there cool site and join in the fun.

#### **BC Oldtimer's Motocross Club**, whose home track is Agassiz - [www.bcoldtimers.com](http://www.bcoldtimers.com)

These guys are old and they rip. They put on awesome events, practices, and races and they do it in style. I have had the pleasure of joining them on many occasions while they kicked my ass and then proceeded to run circles around me. Old Timers...yeah right. Great atmosphere, beautiful venue, super fun and safe track!

#### **Okanagan Trail Riders- [www.OkanaganTrailRiders.com](http://www.OkanaganTrailRiders.com)**

One of my favorite areas in the BC interior. The Okanagan Trail Riders are based out of Kelowna and are busy fighting to keep Bear Creek open for decades to come. Help them in there fight!

#### **Squamish Dirt Bike Asso.- [www.squamishdirtbikeassociation.com](http://www.squamishdirtbikeassociation.com)**

The organization was formed to help deal with the problem of many people coming into this area and riding on Mountain Bike Trails. Due to the quick actions of this group we can still ride in the Squamish Area. Please check out there web site and support all their hard work. A new track is in the planning stages and the trails at Cat lake have been reworked.
